

SEBORE EXPORT PROCESSING ZONE

BROCHURE

KM 12 Mayo-Belwa Ngurore Road, P.O. Box 90, Mayo-Belwa
Adamawa State Nigeria

LICENCED UNDER NEPZA ACT 63 OF 1992

Our Mission

To partner with government in the shift from monocultural economy to multiple non-oil export economy.

Our Vision

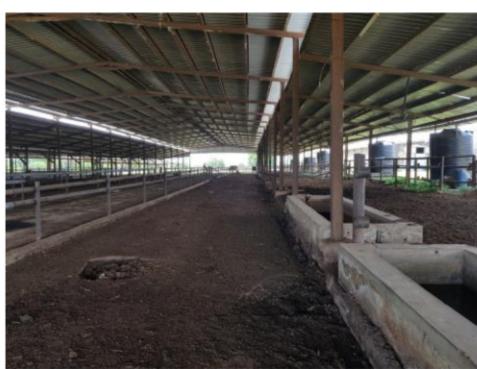

To offer a Sustainable, Self-sufficient industrial hub with production activities that are reliant on raw materials available in the Region.

About Us

Sebore Farms and Extension Services as a corporate institution was established in 1982. The Farm covers 14,000 hectares of land in Adamawa State, Nigeria; and is engaged in Horticulture, Aquaculture, Feed Production, Diary and Cattle farming covering Animal Husbandry, Nutrition, Genetics, Artificial Insemination and other extension services such as staff training.

The Farm attained its Export Processing Zone Status (EPZ) in 2001. And we offer a stable and deregulated environment for ease of doing business for Approved Enterprises in the Zone.

We provide support services and facilities that is designed to significantly reduce the capital investment required to start business operations

Investment Procedure

Investors interested in locating in Sebore Export Processing Zone are only required to follow a few simple steps

1. Pick up an application form online or from the management of the zone in Sebore E.P.Z. This application form cost USD 500* (non-refundable) or its Naira equivalent.
2. Fill out the application form and submit it to the Zone Management along with the required project plan/Feasibility study. Application will be reviewed and either approved or returned with observations within five (5) working days.
3. On approval of application, an Operating License (OPL) will be issued by the Zone management upon payment of the required license fee.*
4. Being licensed by the Zone, NEPZA will register the enterprise after which no further registration is required with the Corporate Affairs Commission (CAC). The Zone Management will then discuss your site location and assign or reserve a space for you.
5. Remit your investment capital through any approved banks which in turn issue a Certificate of Capital Importation.
6. Prepare your building or warehouse space, Investors who are constructing their own buildings must submit four (4) copies of full architectural drawings for approval by the Zone Management according to established building codes. Build-up space should not exceed 70% of the leased land, and construction should start within three (3) months after execution of agreement.
7. Move in and operate. Some companies may have additional procedure to follow such as obtaining permission for their foreign nationals and employees which can be done at the immigration desk office in the zone.

*Fees are subject to review
